SUNGROW

Clean power for all

COMPANY PROFILE

# ABOUT US

**Sungrow Power Supply Co., Ltd. (“Sungrow”) is the world’s most bankable inverter brand with over 405GW installed worldwide as of June 2023. Founded in 1997 by University Professor Cao Renxian, Sungrow is a leader in the research and development of solar inverters with the largest dedicated R&D team in the industry and a broad product portfolio offering PV inverter solutions and energy storage systems for utility-scale, commercial & industrial, and residential applications, as well as internationally recognized floating PV plant solutions, NEV driving solutions, EV charging solutions and renewable hydrogen production systems.**

**With a strong 26-year track record in the PV space, Sungrow products power over 150 countries worldwide.**

## WHY INVEST WITH US

### MORE THAN 26 YEARS

We have come such a long way in our 26 years. The concept of solar power was not really considered as a serious power source even as recently as the 1980s. Combined with other forms of regenerative energy sources, solar power is becoming part of the global energy mix. We have been doing our part since 1997.

### 150 COUNTRIES

We've managed to install clean energy plants in 150 of 190 countries/nations in the world. That is a good first step towards a cleaner climate, but we still have work to do. After all, we all share the same climate, and we all breathe the same air.

### MORE THAN 340GW

In absolute numbers there are 405GW that are currently deployed by Sungrow globally.. This number may sound quite impressive, but compared to worldwide energy consumption we still have room to grow.
